

# SE14-S-O-OFL

# SE14-S-O-OFL

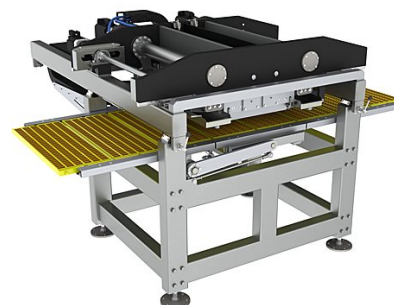

The SE14-S-O-OFL is a standalone depositor for all lines. With dynamic hopper movement, offline feature and detachable hopper for easy cleaning and change-over.

## Picture coming

Stationary floor mounted depositor with dynamic hopper movement and offline facility for easy cleaning and change of depositing parts. The SE14 represents the ultimate depositor with its supreme build quality. All axes are servo driven and extremely strong for handling even the most difficult masses. A wide variety of piston diameters can be supplied to suit the smallest pralines or chips up to tablets with big inclusions. The hopper can be divided into multiple compartments for multi-color or one-shot depositing. The SE14 depositors have built-in lifting table with integrated mould shaking. The SE14 depositor is available for 700 and up to 1200 mm lines, working widths ranging from 580 to 1080 mm, however, the depositor can be made to suit any existing lines as well. Operation is very simple via the intuitive touch screen menu. Further the depositor can be connected to the internet, if any sort of support is needed.

### UPS/EFU

- Cost-effective
- Handles big inclusions
- Easy cleaning and maintenance
- Easy and simple to operate
- High flexibility
- Low energy consumption
