

CONVENIENT HEIGHT MEANS EASY LOADING FOR ALL OPERATORS.

HOLLY MINI-MATIC™ ERGONOMIC MIXER/GRINDER

HOLLY MINI-MATIC...
SMALL AND POWERFUL

TAKE A LOAD OFF! HOLLYMATIC HAS A FRESH NEW ALTERNATIVE TO MIXING AND GRINDING.

The Holly Mini-Matic Tabletop Mixer/Grinder has been created with you in mind. With a smaller 50 pound tub design, we've helped take a little bit of your load off since lifting lighter loads of product reduces bodily strain. This compact, rugged and all stainless steel design is also flexible enough to fit on a counter or cart, at a height for easy loading and unloading.

Holly Mini-Matic's 50 pound per minute production capability is also excellent for fresh store operations. Quick and easy product runs can be made throughout the day and night to provide a fresher product that your customers will value. Supermarkets interested in grinding beef, poultry and pork throughout the day do

not have to worry about cross-species contamination. With Holly Mini-Matic's quick cleaning, one tool disassembly design, an easily removable tub and grinding head makes cleaning between grinds a snap.

Versatility of the Holly Mini-Matic is best illustrated by its flexibility to actually mix or grind utilizing two separate drive motors. The mixing paddles are driven by a variable speed motor that features forward and reverse motion and the 3H.P. feed screw motor delivers compact grinding power.
