

TT 450

Top & Tail-Machine

for
coring leafy salads
and cutting
leaf tips of:

- Frisee
- Romaine/Cos
- Endive/Escarole
- and others

The newly developed top & tail machine TT 450 is perfectly suited for removing the core of lettuce with flat stem (e.g. Frisee, Endive / Escarole, Romaine / Cos) and cutting leaf tips.

It allows – with an at the same time improved yield of up to 6 % – a considerable increase in productivity by up to 110 % per person (Frisee and Endive/Escarole).

The TT 450 is characterised by its easy-to-use-operation:

1. The operator (2 persons possible) places the lettuce heads onto the automatic infeed belt.
2. The lettuce will be transported to the cutting blades and is kept in place with down holders for a correct and soft product guiding.
3. The lettuce core and the leaf tips are cut in one pass, which might be necessary with dry leaf tips or brown discoloration. Length of stem (10–60 mm) and of leaf tips (120–450mm) can be variably set. You can choose both functions together or only the coring function.

The TT 450 is equipped with an automatic waste separation which can be perfected by appropriate waste and outfeed belts.

The solid industrial machine is completely made of stainless steel AISI 304 and can easily be cleaned and maintained due to hinged doors and removable covers.

Technical specifications:

Capacity:	up to 4000 kg / h
	adjustable up to 60 heads of lettuce / min.
Voltage:	400 V, 50 Hz, 3 Ph
Electrical power:	1,8 kW
Width x length x height:	1800 x 4500 x 1800 mm
Weight:	900 kg

- **Belt cutting machines**
GS 10-2, GS 20, GS 25V
- **Slice and wedge cutters**
Tona S, Tona E, Tona S 180K
- **Special cutting and punching machines**
Tona Rapid, Tona Rapid 3D, Tona Rapid XL, Multicorer, TT 450, Multislicer
- **Cube and strip cutter** KUJ V
- **Multi purpose cutting machine** KSM 100
- **Cabbage cutting machine** CAP 68
- **Cabbage corer** KSB
- **Dicing, wedging & shaping machine** PGW, HGW
- **Vegetable and salad washing equipment**
- **Centrifuges and air blowing systems**
- **Peeling machines**
for citrus fruit, melons, apples, pineapples, potatoes, carrots, celeriac, etc.
- **Vertical flow packaging machines**
- **Special machines**
- **Complete production lines**

We develop and manufacture single and special machines as well as complete processing lines for the food processing industry.

KRONEN - smart solutions and convincing technology for the food processing industry!

We look forward to your request!
