

GEWA 1500

Small Capacity Washing Machine

- inline washing or
- batch washing system
- discharges directly into K50 series spin dryer

The GEWA 1500 is a small capacity washing machine for inline washing or batch washing.

Expertise and convincing technology resulting in optimised washing - this applies perfectly to our washing machines series GEWA. Products as for example vegetables, salads, herbs and fruit can be effectively and carefully washed thanks to our rotary helical washing system.

The helical water flow can be fine tuned through the adjustment of separate sets of water nozzles. The water flow intensity can be manually regulated with three ball valves.

Benefits of the belt outfeed

- Extremely delicate products or big leaves will be neatly discharged from the washing machine through a hygienically conceived mesh belt conveyor with a stainless steel drum motor drive.
- Air knives are strategically placed below the conveyor belt discharge to separate the product completely from the belt. Air is generated inside the machine.
- For cleaning the belt can be released by simply lifting up the drum motor. This open structure of the conveyor frame makes cleaning quick and easy.

Well-balanced product distribution in wash tank

- The compact model with a small footprint allow a reduction of water consumption.
- Movement and distribution separate the products perfectly allowing better water contact during the washing. This leads to a gentle and effective cleaning process.
- The helical water flow system takes most products quickly and gently under water. It is not necessary to use mechanical devices to allow product immersion.

The water flow conveys washed product to the product discharge section.

GEWA 1500 and K50 spinner make a perfect team - it discharges directly into K50 series spin dryer!

Technical specifications GEWA 1500:

Voltage:	400 V, 50 Hz, 3 Ph / 230 V, 60 Hz, 3 Ph
Electrical power:	2,5 kW
Total water volume:	220 l
Infeed + outfeed height:	1200 mm
Width x length x height:	750 x 1850 x 1700 mm
Weight:	250 kg
OPTION:	mobile version

cutting · washing · drying · peeling · dividing · mixing · packing

- **Belt cutting machines**
GS 10-2, GS 20, GS 25V
- **Slice and wedge cutters**
Tona S, Tona E, Tona S 180K
- **Special cutting and grid cutting machines**
Tona Rapid, Tona Rapid 3D, Tona Rapid XL, Multicorer, TT 450, Multislicer
- **Cube and strip cutter** KUJ V
- **Multi purpose cutting machine** KSM 100
- **Cabbage cutting machine** CAP 68
- **Cabbage corer** KSB
- **Dicing, wedging & shaping machine** PGW, HGW
- **Vegetable and salad washing equipment**
- **Spin-dryers and air blowing systems**
- **Peeling machines**
for citrus fruit, melons, apples, pineapples, potatoes, carrots, celeriac, etc.
- **Vertical flow packaging machines**
- **Special machines**
- **Complete production lines**

We develop and manufacture single and special machines as well as complete processing lines for the food processing industry.

KRONEN - smart solutions and convincing technology for the food processing industry!

We look forward to
your request!
