LORENZO BARROSO

Z1

Z1

High-speed machine for closing sacks, bags or nettings in upright position with an aluminium clip.

Specifically useful to ensure the closure of products that due to dimensions or weight or type of content can not be laid down horizontally, such as paints, liquids, seafood, frozen, vegetables...

Just by pressing the start lever and without releasing the product from the hands, the clipper closes automatically the clip.

It can be supplied with bench or without, so that it can be fixed on tables, walls, etc.

Features:

- Robust construction with stainless components specially treated to withstand the adverse conditions such machines usually work in.
- Fully pneumatic operation.
- Minimum maintenance.
- Our firm provides lubricant ALB-591 in spray and in can, which meets all EU and USA demanded requirements for its use in the Food Industry.

Following our standards, its devices and elements are protected by our own patents. In order to improve the machine, we reserve the right of modifications without prior notice.

Technical data:

Net weight 12 Kg
Operating pressure: 6 bar
Air consumption: 1 liter/cycle

Model

H-2300
H-2700

Range of clips

H-2309, H-2310, H-2311
H-2710, H-2712, H-2714, H-2716

Accessories:

Knife with stainless support

measures in mm
