●	Ø 325	Ø 325	Ø 325	Ø 255	Ø 200	Ø 163	Ø 137	Ø 117	Ø 102	Ø 90	Ø 90	18 - 100
*Optional possible up to											130	

## Technical data

	VC999 TS2500
Adjustable sealing time	0 - 5 sec.
Production output in cycles per minute max.	
Seal only	12 - 14
Modified atmosphere packaging	8 - 10
Compressed air connection	6 bar
Air consumption per cycle with evacuation (MAP)	38 NI
Power connection	400 V/3PNE / 50 Hz / 12 kW

Technical changes reserved

## VC999 TS2500 Fully automated continuous tray sealing machine

The VC999TS2500 tray sealer is a fully automated in-line machine to automatically seal pre-made trays, with or without exchange of atmosphere (MAP using vacuum/gas) or using Skin Pack. The compact VC999 TS2500 is ideal for large scale production.
