# MF Single L/R

Stationary mounted depositor. Left or right mounted, can be built with left/right mounting to double.

Stationary, right or left mounted, depositor. The MF depositor collection is manufactured at the highest quality. All machines have a servo driven mono pump that handles masses of varying viscosities and inclusions. This depositor is compatible with multi-color, one-shot, inclusions, chips and a variety of other heads. depositor's production capacity ranges from 500 - 1200 lines, with belt widths ranging from 380 to 1080 mm. The depositor can also be made to suit any existing lines. The interactive touch screen menu makes this depositor easily operable. The depositor is also equipped with internet connection for technical support.

## UPS/EFU

- Versatile
- Easy to clean and maintain
- Low total weight and low weight of all moveable parts
- Easy to build into existing lines
- Cost effective
- Low energy consumption
