# SE14-C-O-DHD

# SE14-C-O-DHD

The SE14-C-O-DHD is a C-frame depositor compatible with any production line. With dynamic hopper movement, it is particularly suited to deposit solid or one-shot chocolate bars.

With its C-frame, the depositor is easy to move around for cleaning or placing in another position on the line. The oscillating hopper movement makes the SE14-O particularly well-suited for depositing bars in either solid or one-shot. With its detachable hopper and depositing parts, it is easy to change hoppers and depositing parts for running of another product or cleaning.

The SE14 represents the ultimate depositor with its supreme build quality.All axes are servo driven and extremely strong for handling even the most difficult masses.A wide variety of piston diameters can be supplied to suit the smallest pralines or chips up to tablets with big inclusions.The hopper can be divided into multiple compartments for multi-color or one-shot depositing.The SE14 depositors have built-in lifting table with integrated mould shaking.The SE14 depositor is available for 500 and up to 700 mm lines, working widths ranging from 380 to 580 mm, however, the depositor can be made to suit any existing lines as well.Operation is very simple via the intuitive touch screen menu.Further the depositor can be connected to the internet, if any sort of support is needed.

## UPS/EFU

- Versatile and flexible
- Low energy consumption
- Easy maintenance
- Easy cleaning
- High qaulity
- Perfect match for deposit of bars in either solid or one-shot
