

2 single racks 600x800 mm Gas/oil/electric models

# Double Rack Oven

# **R** FEATURES

# **Total Cost of Ownership**

- > Perfect bake without rejects.
- > Industry leading availability and output for 24/7 production.
- > Most flexible choice for a diversified bakery assortment.
- > Simple handling with self-instructive GIAC control panel.
- > Bakes up to four different products at once with our multiple-alarm system.
- > Renowned durability with the longest life expectancy on the market.
- > World leading energy efficiency, verified by accredited institute, through:
  - · Revent cross-line heat exchanger
  - Energy save mode.
- > Minimized service cost.
- > Fast assembly through Revent's unique wedge system.
- > Quick and easy installation. Baking within a few hours.

### Baking quality

- > Bakes everything without adjustments.
- > The TCC (Total Convection Control) system securing:
  - Even bake
  - · Perfectly even coloured products
  - Minimized weight loss
  - · Maximized bread volume
- > The HVS (High Volume Steam) system securing:
  - Excellent texture
  - Excellent crust

#### **Options**

- > Canopy 600, 1 or 2 speed fan, available in 3-phase voltages
- > Additional energy saving insulation
- > GIAC extended
- > No drain function. Eliminates the need for oven drain.
- > Guard on top (is included in CE version)
- > Steam trap (avoids steam from oven drain in heat section).
- > Pass-through
- > Left hinged door
- > Platform with core temperature sensor
- > Non-CE version

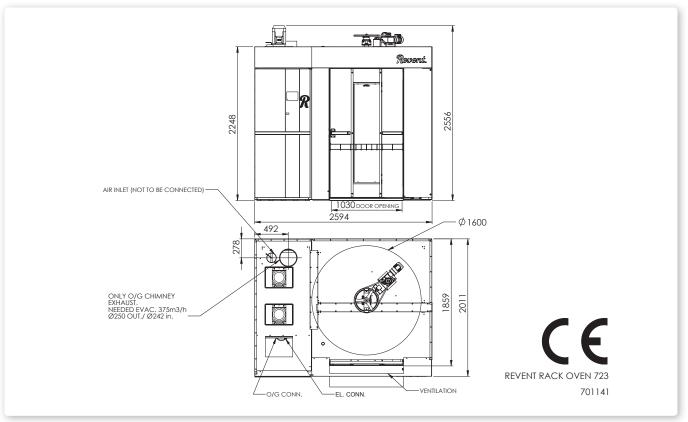

#### Options for gas ovens:

- > Oven wired for local stack fan.
- > Stack fan (flue gas evacuation).

723 UK 20160209

This is an example. For installation drawing, please contact your local distributor or go to Revent website for more detailed information.

### **Utility Requirements**

#### **Electrical**

> Electrical: available in most 3-phase voltages

#### **Water and Drain**

- > Water Supply: G ½"ø 4,4 bar, pH 7.5-8.5, dH 4°-7°
- > Drain: 1" connection (optional connection to front or rear).

#### Ventilation

- > Over Pressure Duct: (through door to canopy)
- > Oven Damper Exhaust: (through door to canopy)
- > Oven Stack Exhaust: ø 250 mm, draft (-3)-(-6) mm water pillar (oil and gas versions only)
- > Required Stack Evacuation: 375 m3/h
- > Canopy Port: ø 252 mm (on optional 600 series canopy)
- > Required Canopy Evacuation: 4000 m3/h
- > If chimney is not straight, please contact factory.

# Installation requirements

The oven must be installed on a levelled non-combustible floor. The oven may be installed flush against a wall. Only the front and top need to be left open for access. The space on top of the oven must be well ventilated and the temperature must not exceed 50°C. This is to avoid damage to electrical components.

#### **Technical information**

- > Maximum Heating Capacity: see table
- > Temperature range: 50-300°C
- > Total shipping weight: 2475 kg\*
- > Minimum intake opening: 1025 x 2020 mm (standard 3 oven section delivery in 4 pieces shipment)
- > Minimum intake opening: 2020 x 2600 mm (optional one piece shipment)
- > Minimum section tilt up height: 3100 mm
- > Swing diameter: 1600 mm
- > Max load for platform 600 kg
- > Steam Generation 11 I/20 sec
- > World leading energy efficiency with LID™ technology and minimized heat bridges.
- > Stainless steel tubular electrical heaters.
- > Stainless steel design.
- > Automatic steam and damper control.
- > Double glass door.

## Revent is ISO 9001 certified.
