

S021

Vegetable cutting machine

for cutting decorative spirals out of carrots, potatoes, pumpkins, radishes, celeriac, beetroots, zucchinis, etc.

The new vegetable cutting machine S021 is perfectly suited for cutting decorative spirals of vegetables very quickly and simply. By means of variable tools a multitude of spiral thicknesses (e.g. 2 x 2 mm, 2 x 8 mm, 2 x 10 mm - other versions on request) can be produced with a max. product length of 250 mm.

The original result is enabling vegetable-processing companies to add a new touch to conventional product presentation in the market with very attractive, fine, springy strands similar to cooked spaghetti.

The machine is driven electrically and pneumatically and is very easy to operate and handle:

1. place the product on the machine
2. press the switch
3. the product is cut into regular and fluffy spirals or spaghettis

The spiral cutting machine S021 is fitted as standard with:

- a safety cover
- a support with guide rods
- a pneumatical cylinder (infeed)
- a geared motor with support for the product
- a stainless steel motor cover
- a support for the knife bloc and the blade
- a stainless steel control box
- adjustable speed
- a connection cable (5m 230V)
- a connection for external compressed air

Technical specifications:

Capacity (finished product):	up to 20 kg/h
Voltage:	230 V, 50 Hz
Air pressure:	6 bar
Width - length - height:	1050 x 270 x 500 mm
