

SE 13-0 Belt

SE 13-O Belt

The SE13 line is built with supreme quality. All axes are servo driven and extremely strong for handling even the most difficult masses.

Stationary mounted depositor with dynamic hopper movement and offline facility for easy cleaning and change of depositing parts. The SE13 depositor represents the ultimate depositor with its supreme build quality.

All axes are servo driven and extremely strong for handling even the most difficult masses. A wide variety of piston diameters can be supplied to suit the smallest pralines or chips up to tablets with big inclusions. The hopper can be divided into multiple compartments for multi-colour or one-shot depositing. The SE13 depositors have built-in lifting table with integrated mould shaking.

The SE13 depositor is available for 700 and up to 1200 mm lines, working widths ranging from 570 to 1070 mm however the depositor can be made to suit any existing lines as well. Operation is very simple via the intuitive touch screen menu.

Further the depositor is able to connect to the internet, if any sort of support is needed.

UPS/EFU

- Easy maintenance
- Easy cleaning
- Designed for medium-high capacity production lines
- Ensures optimum quality
- Servo driven
- Handles a great variety of diverse masses
